

Managed Staff Banks

So many people across all departments in the NHS play a vital role in patient safety – that’s why it’s so important to us to help you find the right people for the job.

We’re committed to helping future proof the NHS and build talent and resources for the long term. Just like the NHS, our solutions never stand still. As the NHS workforce landscape changes, the solutions we provide evolve to ensure they always meet your needs.

What is included in the agreement?

The NHS Workforce Alliance’s Managed Staff Banks framework agreement fully supports NHS England’s policy to minimise the use of agency staff and promote a bank first approach. The agreement also provides NHS organisations with an open, fair and transparent route for setting up staff banks that deliver value for money. The framework is arranged in one lot, which includes a full range of staff bank services, including staff bank set up, operation and management of a staff bank, management of cascade to agency suppliers, and workforce analysis and advisory services.

How can the agreement help me?

- Wide range of staff roles covered, including doctors, consultants, dentists and general practitioners; allied health professionals, health science services and emergency services personnel; nursing and midwifery personnel; and non clinical personnel
- Flexible solutions and pricing to suit individual organisational needs
- Access to a mix of experienced suppliers and capable new market entrants
- NHS Workforce Alliance carry out quality assurance checks to make sure worker pre-employment checks for NHS roles follow the [NHS Employers Check Standards](#) and [Skills for Health](#)
- Support for NHS England’s initiative to reduce agency useage and expand the use of staff banks, particularly for medical staff
- Access to management information to detailed reported spend and market analysis
- End-to-end planning and delivery solutions available

Where can I find out more?

Further information including awarded suppliers is available on the NHS Workforce Alliance website.
